

# Street nameplates in Tunbridge Wells Borough

---

## Specification

Plate:	Die pressed aluminium plate with standard corners or reverse printed polycarbonate
Typeface:	90mm Kindersley style with subsidiary lettering at 50mm
Colour Scheme:	Black lettering and borders White background
Frame:	Black Duraplas re-cycled plastic stand unit

## Installation

Nameplates are to be installed at the back of footway unless otherwise agreed.

A CAT scanner is to be used to locate cables and pipes, and excavations are to be carried out by hand digging.

Foundations to be 300mm square and 300mm deep using ST2 concrete and post inserted with dowel fixing, as supplied by the manufacturer.

The mounting height is 600mm unless otherwise agreed.

Posts are to be set vertical and sign horizontal.

Surface or verge to be reinstated to original condition.
