- Notes:
 a. Gross floorspace derived from IGD database, Tunbridge Wells Borough Council records or Nexus Planning Assessment
 b. Net floorspace derived from IGD database or Tunbridge Wells Borough Council records where available or based on Nexus Planning professional judgement (generally assumed to be 70% of gross floorspace for smaller stores where not specifically known)
 c. Proportion of net floorspace derived from typical company split between convenience and comparison floorspace as identified by Verdict UK Food & Grocery Retailers 2014 with the exception of large food superstores (i.e. over 4,000 sq.m net sales area) which are assumed to have approximately 60-40 split in favour of convenience goods and local foodstore which are assumed to have 95% of net sales dedicated to convenience. Ald and Lid1 are assumed to have 80% of net sales dedicated to convenience goods, which correlates with our experience elsewhere d. Sales densities relate to the monetary turnover of each square metre of net sales area and are derived for all retailers except Lid1 and Ald if trom Verdict UK Food & Grocery Retailers 2014, and for Lid1 and Ald from Minted Retail Rankings 2015.

 e. It has been assumed that all unnamed and local convenience stores within a centre (including B&M, Bargain Booze, Budgens, Costco, Heron Foods, One Stop) are 'trading at equilibrium' (i.e. their 'benchmark' turnover equates to that ientified by the survey)

 f. Survey derived performance of stores calculated by adding together 'main' and 'top up' turnover as set out in Table 4
